CMIE-CPDX Database

The SNIoE Central Library has now subscribed to the CMIE-CPDX Database. CMIE-CPDX is a comprehensive information resource database that researchers and academicians widely use for their research work. This database provides access to a vast collection of data, reports, and publications on various aspects of the Indian economy. This database is a product of the Centre for Monitoring Indian Economy (CMIE), one of the leading economic research organizations in India.

The CMIE-CPDX database is an essential tool for researchers as it offers a wide range of data and information on different sectors of the Indian economy. It covers areas like agriculture, industry, infrastructure, finance, and trade, making it a one-stop destination for all economic data related to India.

We are thrilled to be able to offer this fantastic resource to our users, and we hope our students, faculty, and staff will take full advantage of this subscription.

Shiv Nadar Institution of Eminence

The SNIoE University faculty members have made a remarkable contribution to the academic sphere with the publication of numerous papers in the Scopus database. This collection comprises 2,877 documents and 893 authors affiliated with the SNIoE University. The majority of these papers have been published in the fields of engineering, materials science, physics, and astronomy. This impressive achievement of the faculty members is a testament to the university's commitment to excellence in research and education.

- **Click on Scopus**
- **It is accessible on both IP and remote (via Shibboleth).**

BOOK REVIEW
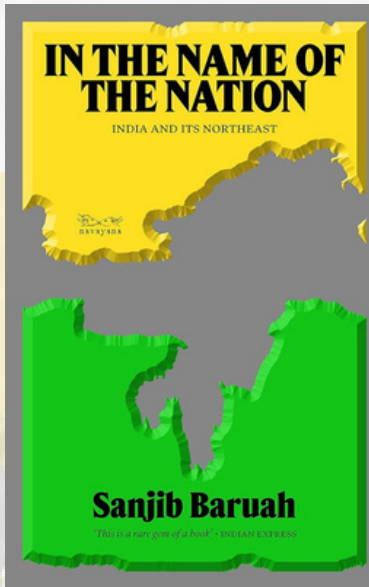

IN THE NAME OF THE NATION: INDIA AND ITS NORTHEAST

By Sanjib Baruah

In India, the eight states that border Myanmar, Bangladesh, Bhutan, and the Tibetan areas of China are often referred to as just the "Northeast." In the Name of the Nation offers a critical and historical account of the country's troubled relations with this borderland region. Its modern history is shaped by the dynamics of a "frontier" in its multiple references: migration and settlement, resource extraction, and regional geopolitics. Partly because of this, the political trajectory of the region has been different from the rest of the country. Ethnic militias and armed groups have flourished for decades, but they coexist comfortably with functioning electoral institutions. The region has some of India's highest voter turnout rates, but special security laws produce significant democracy deficits that are now almost as old as the Republic. These policies have been enforced to foment national unity. At the same time, multiple alternative conceptions of the "nation" animate politics in the region force us to reflect on the very foundations of the nation form. Sanjib Baruah offers a nuanced account of this impossibly complicated story, asking how democracy can be sustained and deepened in these conditions.

LIBRARY HIGHLIGHT

LIBRARY ORIENTATION PROGRAMME

- **Join us every Monday to Friday between 2-5 p.m. for the SNIOE Library Orientation Program.**
- **Know about the library services and facilities.**
- **Know the subscribed resources i.e., Journals and Databases.**
- **Library Collection**
- **Repository to support our research scholars.**
- **Other research support.**
- **This program is open to all students, staff, and faculty.**
